« Corporate Social Responsibility »

● REDEN, a responsible vision of solar energy

As a well-known player in the energy transition and a green power producer in France and abroad, REDEN Group is working each day, by the very nature of its business, for sustainable development and, more precisely, the development of sustainable solutions for cleaner energy for the planet.

Certified ISO 9001 and 14001 over the past several years, REDEN Group, as a responsible company, wanted to go further and had, therefore, committed to an active CSR approach (Corporate Social Responsibility).

To respond to the social, environmental, societal and economic challenges that become essential in our society, REDEN group is committed to **an active approach to Social and Environmental Responsibility**.

This **10 CSR commitments**, associated with our values, formalised by the Corporate Social Responsibility), are at the heart of each of our actions to combine economic development and social responsibility and implement a responsible vision of solar energy.

● Our social policy

As an employer, aware of its responsibilities, REDEN acts, each days, consistent with its values, to ensure the development of jobs and skills, health and safety at work and the improvement of the working conditions and well-being at work.

Our social commitments :

Ensure good working conditions and promote the development and the fulfilment of each employee.

○ Development of employment and skills

- Recruitment in collaboration with local partners
- Systematic integration, in each department, of all new recruits in order to develop the knowledge of the teams and the knowledge of the whole group
- Implementation of an ambitious annual training plan in terms of investment and hours.
- Reinforcement of the reception of trainees and work-study students

○ Prevent risks
