

REDEN Welcomes a Deputy CEO to Lead its International Expansion in Photovoltaics

*With a stellar track record in the energy, economic, and industrial sectors at an international scale, **Frank DEMAILLE**, formerly Executive Vice President of ENGIE, will support REDEN in its next phase of growth.*

Roquefort, January 16, 2024 – As a benchmark player in the photovoltaic sector, REDEN is proud to announce the appointment of Frank DEMAILLE as Deputy CEO. With considerable expertise, both operational and strategic, Frank possesses in-depth knowledge of French and European challenges and mechanisms in the energy sector. After ten years in the French public administration (among others within the Interministerial Committee for Industrial Restructuring of the Ministry of Finance and the Prime Minister's office), he has held during fifteen years various positions at ENGIE worldwide, including that of Executive Vice President, in charge of Transformation and Geographies. His accumulated experience will play a pivotal role in guiding REDEN Group's activities. Emphasis will be placed on the development of existing markets as well as new opportunities to lead REDEN towards new successes and promote the deployment of environmental-friendly solar energy, in line with societal challenges.

*« REDEN has strong values, undeniable expertise, and extraordinary growth potential », says **Frank DEMAILLE, Deputy CEO of REDEN**. « I will therefore strive to maintain and strengthen the Group's strategic principles while bringing a fresh perspective on the market and its opportunities, both in France and internationally. As a responsible company, we have a duty to act for the environment, the regions, and future generations. In tandem with Thierry Carcel and, more broadly, the entire REDEN team, I am committed to preserving and supporting this positive momentum, resolutely focused on the future, by combining long-term objectives with the realisation of inspiring short-term projects. »*

*« I am delighted with Frank's arrival within the Group », adds **Thierry CARCEL, CEO of REDEN**. « His proven expertise and his pragmatic but also ambitious and clear-sighted vision will allow us to work together on a stronger strategy. REDEN is at a key period in its history, and with Frank, we are giving ourselves the means to reach new heights. But what is even more important to me is that he embodies the founding values of REDEN and gives a predominant place to human values in his management. Our CSR policy and internal cohesion will thus be reinforced. »*

About REDEN

REDEN is an independent producer of photovoltaic renewable energy, focused on the development, construction and operation of photovoltaic power plants on an international level. Founded in 2008 in the French Lot-et-Garonne region, REDEN owns and operates 1 GW of installed capacity on 800 sites. Growing steadily since its creation, REDEN employs more than 200 people across nine countries: France, Spain, Portugal, Greece, Italy, Germany, Mexico, Puerto Rico and Chile. Its values of Benevolence, Ethics, Commitment and Professionalism are at the heart of the Group's performance.

Our solutions: agrivoltaic greenhouses, ground-mounted structures for livestock and arable farming, shade structures for orchards or car parks, and ground-mounted power plants for degraded land.

Since July 2022, Macquarie Asset Management, in a consortium with British Columbia Investment Management Corporation (BCI) and MEAG, has been supporting the Group in its new growth phase.
